

## REMARKS

In accordance with the foregoing, claim 1 has been amended, claim 2 has been cancelled, and new claims 13-14 have been added. Claims 1, 5-9 and 11-14 are pending and under consideration.

### *Rejection of claims 7-9, 11 and 12 over Clark in view of Kim or Coleman*

The rejection is respectfully traversed. Independent claim 7 (used as an example) recites a rear part detachably placed inside the main body at a rear of the main body and side parts detachably connected to opposite sides of the rear part, respectively. The Examiner relies upon the side walls 28 and back wall 30 of Clark. However, there is no teaching in this reference that these walls are detachably placed or connected. Kim does not overcome this deficiency.

Although Coleman is not mentioned in the heading for the rejection, the reference is discussed in the Office Action, therefore it is also noted that this reference does not overcome the deficiencies in Clark.

### *Rejection of claims 1, 2, 5, 6 and 12 over Hedenberg in view of Clark*

The Examiner states that Fig. 2 of Hedenberg teaches side walls. However, there is no teaching that any side walls of this reference are detachable.

Accordingly, withdrawal of the rejections is requested.

There being no further outstanding objections or rejections, it is submitted that the application is in condition for allowance. An early action to that effect is courteously solicited.

Finally, if there are any formal matters remaining after this response, the Examiner is requested to telephone the undersigned to attend to these matters.

### *New Claims*

New claims 13 and 14 are patentable over the cited references at least due to their dependency from claim 1.

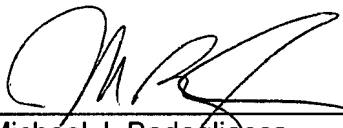

Serial No. 10/805,352

If there are any additional fees associated with filing of this Amendment, please charge the same to our Deposit Account No. 19-3935.

Respectfully submitted,

STAAS & HALSEY LLP
